Subject: Written Testimony Re: Proposed Gun Legislation 2022

Dear Judiciary Committee,

I'm a law abiding citizen, & strong supporter of our 2nd Amendment of the constitution of the United States of America. I also enjoy the outdoors & the shooting sports. I'm voicing my concerns that there does not need to be any new gun laws in our state of Ct. After all our legislators brag how Connecticut has the toughest gun laws in the nation. Well if we in Connecticut have the toughest gun laws, why would you want make more laws. What you as legislators need to do is to enforce the current laws, & stop allowing the serious offenders out on the streets. I can't believe when I read the newspaper headlines "convicted felon in possession of a firearm." If one is a convicted felon, shouldn't he or she be behind bars? The guns are not to blame. You need to get tougher on these criminals; especially juveniles who commit serious assaults, & even murder. It's very shocking that these juveniles do not do any jail time. What a joke. Criminals don't abide by the law, & no matter what legislation you pass, these crimes will continue to occur. Honest people like myself, & others are the ones who are being penalized. Banning certain firearms, or limiting magazine capacities, isn't going to solve this gun violence problem. Please stop this feel good legislation, & make the citizens of Connecticut feel good by enforcing our current laws. Get tough on crime.

Thank You!
